Description of Program

The Dental International Student (DIS) Program at Tufts University School of Dental Medicine began in 1956 to provide foreign-trained dentists with the education and experience required to practice dentistry in the United States. The program consists of five semesters of coursework and clinical experience, including innovative courses in implantology and geriatric dentistry. Upon completion of the program, students receive a D.M.D degree and are eligible for licensure to practice dentistry in the United States.
