

THE VOICE OF
DENTAL EDUCATION

University of Colorado School of Dental Medicine

[International Student Program Website](#)

Description of Program

Welcome to the University of Colorado School of Dental Medicine, ISP Program at the Anschutz Medical Campus in Aurora, Colorado. With more than 80,000 patient visits per year and over 300 students and residents, the School of Dental Medicine is an active member of the clinical and educational Anschutz Medical Campus community - a community that you are invited to join.

The International Student Program offers qualified graduates of foreign dental programs the opportunity to earn the Doctor of Dental Surgery (DDS) degree at the University of Colorado School of Dental Medicine. Graduates of this two-year accredited DDS program may take any state or regional board, and thus are eligible for licensure and practice within the United States.

The program consists of didactic courses supported by some on-line resources, pre-clinical simulated courses provided within the School of Dental Medicine and clinical courses involving direct patient care in the School's clinic and community-based urban and rural health clinics.
