

2009 AADSAS Academic Update Timeline

The Academic Update (AU) process allows you to add any recent completed courses and grades to the coursework section of your AADSAS application. Refer to the timeline below:

- Academic Update opens **November 17, 2008**
 - Email notification sent to ALL applicants.
 - The AU is only available to applicants that have completed and submitted their dental application to AADSAS by January 16, 2009.
- Applicants should request that your registrar send updated transcripts directly to AADSAS. It is mandatory that you print the Transcript Matching Form and send request to your registrar's office. If your transcript does not accompany your Matching Form it may delay processing your application.
- After receipt of ALL transcripts, transcript verification and processing can take **4-6 weeks**. Your updated application will be made available to your designated dental schools electronically. You will know when the Academic Update has been completed when you see revised grade point averages in your AADSAS application.
- Academic Update will **close on February 1, 2009 (11:59 pm EST)**. Applicants will no longer have access to enter grades.
- The last day AADSAS accepts transcripts from applicants is **February 13, 2009**. Transcripts received after this date will be placed in a holding file and will not be processed.

If you have questions about participating in the Academic Update, review the Frequently Asked Questions section of the AADSAS website www.adea.org.

AADSAS strongly recommends that you continuously check the status of your application to ensure that your updated academic information has been sent to your designated schools.
