

Benefits of Participating in ADEA PASS

ADEA PASS is the centralized application service for over 600 participating advanced dental education programs. The ADEA PASS application is available to all individuals applying to all participating advanced dental education programs. ADEA PASS simplifies the application process by permitting the applicant to submit a single application that is distributed to the programs the applicant selects, thus relieving applicants of the need to complete multiple applications to multiple programs. The standard ADEA PASS application consists of an online application that includes an applicant-composed essay, a mandatory PPI evaluation report, optional Professional Evaluations submitted on the applicant's behalf, an Institution Evaluation from the dean of the applicant's dental school, and the applicant's official dental school transcript. To be eligible to participate in ADEA PASS, your advanced dental education program(s) must be accredited by the Commission on Dental Accreditation or be offered by a dental school that is accredited by the Commission on Dental Accreditation.

Join today and experience the benefits that include:

- A fully online operation
- Recruitment support through the ADEA PASS Program Search Engine that makes your program visible to prospective applicants throughout North America and beyond
- Access to the comprehensive application management tool (WebAdMIT) that enables ADEAPASS participating programs to administer their application processing, applicant evaluation and selection, reporting, and candidate communication completely online.
- Utilize the special faculty reviewer feature through WebAdMIT that will allow you to securely designate your selection committee members to receive applicant files for on-screen read-only review.
- No cost to programs

ADEA PASS serves only as an information clearinghouse and does not influence programs' appraisal or selection of applicants. Each advanced dental education program has the right to request supplemental information from its applicants. ADEA PASS currently processes applications for these program disciplines:

- Advanced Education in General Dentistry
- Anesthesiology
- Clinical Research Fellowship
- Dental Public Health
- Endodontics
- General Practice Residency
- Geriatric Dentistry
- Implant Dentistry
- Operative Dentistry
- Oral and Maxillofacial Pathology
- Oral and Maxillofacial Surgery
- Oral Biology
- Oral Medicine
