2014 ADEA COMMISSION ON CHANGE AND INNOVATION IN DENTAL EDUCATION SUMMER LIAISONS MEETING

JUNE 10–12, 2014
HYATT REGENCY PHILADELPHIA AT PENN’S LANDING
PHILADELPHIA, PA
Unlocking Innovation through Technology

Overview

With more than 80 million Americans facing barriers to obtaining dental care today, and changing demographics including an aging population, the need for innovation in oral health care delivery is becoming more acute. To discuss the use of technology in combatting this issue, Tuesday’s keynote address will feature Dr. Michael Hegleson, CEO of Apple Tree Dental. Apple Tree Dental is a nonprofit organization recognized for its technological, workforce and policy innovations spanning nearly three decades. Multidisciplinary collaborations in care delivery, new financial and governance models, telehealth programs linking oral health teams and new mobile delivery systems are used to provide access to dental care across the life span.

Later in the afternoon, the focus will shift from the use of technology for serving the underserved to its use in improving learning outcomes. When education scholars shifted their focus away from teaching and placed it squarely on learning, all previous rules for providing students with lecture content flew out the window. In an age of technology we find chalkboards, along with pencil and paper, replaced by technology as the main conduit of information delivery. PowerPoint, clickers, blogs, Wikis and webinars are just a few of the content delivery modalities that have infused the student learning experience.

The transformation was swift and uneven with some faculty quickly adapting their classrooms while others continue to struggle to gain ground under the heap of technological advancements. As faculty grapple with deciding what, if any, technology they should incorporate into their courses, the lack of clear guidelines on how best to use technology has resulted in many myths. Do all students prefer technology-enhanced courses? Is more technology better than less? Does technology actually improve student learning?

During this highly interactive (and technology savvy) day and a half workshop, participants will have the opportunity to learn when and how technology is best used to engage students and bring innovation to the learning experience.

Total CE Credits: 8.0

Learning Objectives

- Recognize how a highly functioning integrated team of dentists and allied dental health professionals can enhance oral and overall health care for underserved populations by collaborating daily with other health professional teams in a variety of clinical locations.

- Examine various technologies used by educators, students and clinicians in several clinical education innovation projects designed to reach underserved populations more cost-effectively.

- Gain knowledge by sharing their own successes in incorporating innovations and technologies into their work settings and by interacting with the presenter and other participants.

- Examine common myths that surround learning technologies.

- Distinguish which learning technologies work best for specific learning contexts.

- Apply best practices in utilizing learning technologies to the development of a student “learning-centered” format.

**Tuesday, June 10**

- **Registration and Information**
- **Networking Breakfast**
- **Welcome Remarks and Overview**
  - **Presenter**
    - Lily T. Garcia, D.D.S., M.S., FACP
      Chair of the ADEA Board of Directors
    - Kim Isringhausen, RDH, B.S.D.H., M.P.H.
      Chair of the ADEA Council of Allied Dental Program Directors
    - Richard W. Valachovic, D.M.D., M.P.H.
      ADEA President and CEO
    - Eugene L. Anderson, Ph.D.
      ADEA Chief Policy Officer and Managing Vice President
- **Keynote Address:**
  - **Technology, Access and Serving Underserved Communities**
  - **Presenter**
    - Michael Helgeson, D.D.S.
      Chief Executive Officer, Apple Tree Dental
- **Networking Break**
- **The Critical Role of Academic Leaders:**
  - **A Conversation with ADEA Leadership**
  - **Presenter**
    - Lily T. Garcia, D.D.S., M.S., FACP
      Chair of the ADEA Board of Directors
    - Richard W. Valachovic, D.M.D., M.P.H.
      ADEA President and CEO
    - Susan H. Kass, RDH, M.Ed., Ed.D.
      ADEA Board Director for Allied Dental Program Directors
  - **Moderator:** N. Karl Haden, Ph.D.
    Founder and President, AAL
- **Networking Lunch**
- **Interactive Panel: Myth Busters!**

Presenter
Eugene L. Anderson, Ph.D.
ADEA Chief Policy Officer and Managing Vice President

10:00 – 11:00 a.m.  Mega Topic #2: Future Role for the CCI Liaisons  Grand Ballroom BC

Bryan J. Cook, Ph.D.
ADEA Senior Vice President for Institutional Capacity Building

11:00 – 11:30 a.m.  Closing Remarks and Summary of Discussions  Grand Ballroom BC

Bryan J. Cook, Ph.D.
ADEA Senior Vice President for Institutional Capacity Building
2015 ADEA COMMISSION ON CHANGE AND INNOVATION IN DENTAL EDUCATION SUMMER LIAISONS MEETING

Save the Date
June 9-11, 2015
Radisson Hotel & Suites Austin Downtown
Austin, TX
The American Dental Education Association is an ADA CERP Recognized Provider.

ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

The American Dental Education Association designates this activity for 8 continuing education credits.

Continuing education (CE) credit is awarded for overall participation in 2014 ADEA Commission on Change and Innovation in Dental Education Summer Liaisons Meeting.

All speakers agree that neither they nor members of their immediate family have any financial relationships with commercial entities that may be relevant to their presentation.

How to Obtain Continuing Education (CE) Credits

To receive CE credit, please complete the evaluation process for all eligible attended sessions. Education session evaluations will be emailed to attendees on or before June 20, 2014. CE Verification Forms will be emailed in July 2014 to those individuals who complete the evaluation process on or before the deadline indicated on the evaluation.

Should you have any questions, please contact Eric Lund, ADEA Professional Development Manager, at (202) 289-7201 or lunde@dea.org.
Celebrate all dental educators and administrators who are Igniting Minds and Unlocking Potential of every student at the 2015 ADEA Annual Session & Exhibition. Dental educators are critical to students’ success because of the knowledge and expertise they share with students. Faculty help instill in students a passion for dentistry and a sense of caring for patients. Each student is prepared for a professional life in dentistry because of the dental educators who guide and support them as they strive to meet their goals.

Each student brings to their dental education a unique set of life experiences and educational background. Join your colleagues at the 2015 ADEA Annual Session & Exhibition as we explore how dental educators ignite the minds and unlock the potential in each student, guiding them and preparing them for a rewarding career in the caring profession of dentistry.
