Description of Program
The International Dental Program is designed to allow qualified dentists educated in countries outside the United States to earn Doctor of Dental Surgery (D.D.S.) degrees in the United States. The D.D.S. degree from a United States dental school is an educational requirement for eligibility to take the dental licensure examination in many states. The program has a minimum length of two academic years, but may be extended, when necessary, to meet the needs of a particular student.
