i. The CCGD Section’s Program Proposal for the ADEA 2012 Annual Session entitled “Baby Boomers and Dentistry: Engaging Our Community” in collaboration with the Section on Gerontology and Geriatrics and the Section on Practice Management was denied due to a confluence of scheduling issues, venue size plus a 50% increase in the number of programs submitted. Therefore, the CCGD Section did not have a program at the 2012 Annual Session.
a. The program committee (ASPC) reported issues in the process of proposal submissions. Programs were submitted that were not reviewed due to errors in the submission process. The program committee recommended submission of the CCGD Section’s 2012 proposal in the future.

b. The submission process for ADEA program proposals has been changed for 2013 to include:
   2) Examples of well written and poorly written submissions.
   3) A revised process for reviews which assigns a lead reviewer to each group of programs. The lead reviewer will see the feedback going to the submitters and will see all scoring before the information goes to the Program Committee for final approval or dismissal. There will now be communication between the committee and the lead reviewer.

c. The submission deadline for the 2013 annual session is June 1, 2012. Combined programs with other sections are strongly encouraged.

iii. The ADEA Council of Sections Program Fund
   a. The ADEA Board of Directors voted unanimously to approve the proposed Program Fund for the Council of Sections. The Council of Sections has developed this program fund to provide financial support for Section and SIG programming at the ADEA Annual Sessions. Funds will be utilized for outside speakers (non-ADEA members) to receive an honorarium, support for a portion of their airfare and two nights lodging for programs sponsored by CoS.
      1) The honorarium consists of $500. The support towards airfare is $650 maximum. The support for lodging includes two nights at the ADEA host hotel.
      2) The maximum funding for any one program: $3,000.
   b. The Council of Sections reports approximately $167,000 in total funds. They applied 45%, approximately $75,000 dollars, to the Program Fund.
   c. There is some funding for speakers who are ADEA members under certain circumstances.
   d. Proposals to the program fund will be weighted according to their effect on dental education, collaboration with other sections as well as, their relation to ADEA Strategic Directions.
   e. This year the deadline for applications for the program fund is April 23, 2012 with a promised response by May 21, 2012. The deadline for program proposals is June 1, 2012. These deadlines will be reset for the following years to allow more time for submissions and review of the submissions.
iv. The ADEA Council of Sections Project Pool
   a. The project pool, established by the ADEA House of Delegates, is designed to fund national research projects, studies, and reports that support the ADEA Mission, Core Values and the ADEA Council of Sections’ Strategic Directions and Goals beyond the normal resources of individual Sections, Special Interest Groups, and members.
   b. The fund is seeking new proposals. Applications can be made through a section and need to be in combination with another section; multiple sponsors are favorably considered. For all proposals, the project’s PI should obtain a letter specifying support from the appropriate Section Councilors. There are two application deadlines, September & February. The Council of Sections makes the decision regarding the acceptance of projects.
   c. The project pool funds are approximately $50,000. The board of directors has stated that the money will be replenished as it is spent.

v. Financial Report
   a. The CCGD section fund is $1,900, which remains from when dues were collected from all members.

The American Dental Education Association (ADEA) is partnering with Western University and the American Association of Colleges of Pharmacy to contribute to "Education Scholar," an online, self-paced program designed to promote teaching excellence and professional development. The program this year’s meeting was well organized and well run by ADEA staff and a special thanks to Monique Morgan for all of her help. We would like to also thank the CoS Admin Board for taking up the issue of program selection and helping to institute new regulations that hopefully will reduce or eliminate the chance of the debacle that occurred this year in the review process for Annual Meeting programming from occurring again.
