

ADEA Task Force on Envisioning and Transforming the Future of Oral Health and Education (ADEA ETFOHE)

Grant Funding Proposal Questions

Below are the questions applicants for the ADEA ETFOHE Task Force grant funding should be prepared to answer in the proposal submission. All questions must be answered within the required structure.

If there are any questions or need for clarity, please reach out to communications@adea.org.

1. Provide a brief overview of your proposal that would allow a reviewer unfamiliar with your work to quickly understand what you are proposing and why it matters. (Response should be two or three sentences and no more than 100 words.)
2. Describe how your proposal aligns with the selected ADEA ETFOHE Task Force theme. Clearly identify which thematic “area(s) of focus” your proposal addresses and explain the connection. (Responses should be no more than 250 words.)
3. List the names and designations of the persons involved with this project, their roles on this project and any organizations and institutions involved with your project. Describe how they contribute or are essential to the project. (Responses should be no more than 250 words.)
4. Provide a brief biography of the Principal Investigator and key team members, emphasizing qualifications and experience directly related to the proposed project. (Responses should be no more than 150 words.)
5. Provide a description of the following: (1) The problem or opportunity your project addresses and its significance to oral health education or oral health, (2) The population your project serves or impacts; and (3) the setting or context in which the project is implemented or will take place. (Responses should be no more than 250 words.)
6. Describe your proposed model or intervention, including its key components, how it will be implemented and the evidence or rationale that supports its design and expected effectiveness. (Responses should be no more than 500 words.)
7. Describe the anticipated challenges or barriers to implementing your proposed project and outline your plan for mitigating or addressing each challenge. (Responses should be no more than 250 words.)

8. List the key deliverables your project will produce and describe how you plan to disseminate your findings or model to the oral health education and the oral health community, including your intended audience and dissemination channels. (Responses should be no more than 250 words.)
9. Describe the expected project outcomes, how they will be measured and how success will be defined. (Responses should be no more than 250 words.)
10. If the following are related to your project, please explain:
 - Institutional Review Board requirements
 - If artificial intelligence is a part of the project, please describe how the platform will be trained for ethical and equitable design and use.
