Described by graduates as “life-changing,” Achievers™ is the cornerstone program of Bell Leadership, designed to help you lead like the best in the world in a way that is congruent with who you are. Based on a half century of research and consulting with thousands of leaders across the world, Achievers™ provides a unique framework to understand exceptional leadership in a personal context. While other leadership programs give you an assessment of how you behave, Achievers™ goes deeper, leaving you with key understandings of why you behave as you do. Knowing yourself deeply and how your behaviors affect others enables you to develop your unique leadership style. Achievers™ provides leaders at all levels the pivotal tools to improve their leadership capacity immediately, while also creating lasting change for a lifetime.

YOU WILL LEARN TO:

• Assess your strengths and weaknesses as a leader.
• Understand your personality, your motivations, and how your results affect others.
• Build practical skills required to positively impact people at every level of an organization.
• Reduce ineffective behaviors that hold you back from achieving your leadership potential.
• Develop the six Achiever core competencies of exceptional leaders.
• Grow your self-confidence as a leader to gain commitment from your team.
• Create an action plan that enhances and sustains your leadership skills and effectiveness.

“Absolute best class I’ve taken. I have 4 degrees and take multiple continuing ed courses throughout the year and this BY FAR has been the most beneficial to my management role that I am currently in.”

PREPARATION:
In advance of the seminar, you will complete the Bell Personality Profile a 360-degree survey where you will request confidential feedback from those that know you well (i.e., your colleagues, family members, friends). Your personalized Bell Personality Profile will be shared with you during the program to provide personal and practical insights for how to improve your leadership and management style.

ENGAGEMENT:
Make Connections. Building relationships is paramount to great leadership. This program creates an engaging environment for peers to connect and learn from each other. You will enhance your skills by interacting with other leaders and receive in-the-moment coaching from Bell Leadership team members.

Increase Self IQ. Great leaders know themselves extremely well. During the program, you are encouraged to discover the core of who you are and why you behave the way you do. This deep self-learning creates a lasting effect.

Have fun. People commit to what they enjoy. For more than 50 years, Bell Leadership believes that "fun" promotes learning and builds happier and more productive leaders.

Receive Feedback. Honest feedback improves self-awareness. Not only does the Bell Personality Profile reveal how you view yourself, but how others perceive you. Within the framework of the Achiever Model™, you will gain a greater understanding of your leadership style as compared to the best leaders in the world.

Drive Results. By the conclusion of the program, you will develop an actionable plan to build your leadership skills and enhance your personal effectiveness.
