ADEA Regional Accreditation Workshops

Dear Dean,

The July 1, 2013 implementation date for the revised Commission on Dental Accreditation (CODA) Accreditation Standards for Dental Education Programs is rapidly approaching. ADEA realizes that the changes in the standards will present new challenges to our member institutions.

To help you and your faculty prepare for these challenges, we are developing a series of ADEA Regional Accreditation Workshops (see attached document). Content will be provided by Professor Bill Hendricson (University of Texas Health Sciences Center at San Antonio School of Dentistry) and will include critical areas related to the revised standards.

We are asking you to identify 2-5 key individuals at your institution to participate in the workshop within your region. Suggested participants are your academic dean, clinic dean, institutional assessment/strategic planning coordinator and/or chair of the self-study process. We intent is to provide valuable content to your key leaders in accreditation in a venue that promotes discussion, sharing and collaboration.

Please note that there is no registration fee for the workshops. Additional information about locations, dates and registration can be found at [NEED LINK](#).

Whether you will one of the first schools experiencing a site visit under the new standards or one that will have a site visit at a later time, early preparation is critical. We encourage your institution's participation in these workshops and thank you for your support as we proactively work to help your school prepare for its next accreditation site visit.

ADEA Regional Accreditation Workshops

What are they?

Regional workshops (San Antonio Texas, Indianapolis Indiana, Atlanta Georgia, Philadelphia Pennsylvania and Portland Oregon) sponsored by ADEA to be held between April 2012 and May 2013.

What is the Goal?

To help schools prepare for accreditation site visits under the revised Commission on Dental Accreditation (CODA) Accreditation Standards for Dental Education Programs.

Who Should Attend?

Three-five individuals from your institution who are leaders in the accreditation process (your academic dean, clinic dean, institutional assessment/strategic planning coordinator and/or chair of the self-study process are suggestions).

What are the benefits of attendance?

Early preparation. Whether you will be one of the first schools experiencing a site visit under the new standards or one that will have a site visit at a later time, early preparation is critical.

Learning from colleagues as well as the presenters. The small venue will provide the opportunity for quality discussion, sharing and collaboration among the participants as they interact with each other and the presenters.

ADEA Regional Accreditation Workshops

San Antonio, Texas: April 12-13, 2012
