Applying to Dental School?

The ADEA AADSAS (ADEA’s Associated American Dental Schools Application Service®) is a centralized application service for individuals applying to dental school that uses one application form for all dental schools.

ADEA AADSAS Application

ADEA AADSAS opens early in June

1. Applicants must:
   1. Complete the online ADEA AADSAS application and designate dental schools.
   2. Send all official college transcripts to:
      ADEA AADSAS
      PO Box 9110
      Watertown, MA 02471
   3. Indicate who is writing the letters of evaluation.
   4. Schedule a date to take the Dental Admission Test (DAT), administered by the American Dental Association (ADA).

2. ADEA AADSAS then:
   1. Verifies all transcripts and calculates the ADEA AADSAS GPA.
   2. Imports DAT scores from the ADA when available.
   3. Processes and submits the final application to the designated dental schools.

3. Dental schools will:
   1. Review completed applications.
   2. Match to supplemental materials.
   3. Schedule interviews.
   4. Make individual admissions decisions.

ADEA AADSAS closes in early February. Schools begin notifying applicants of provisional offers of admission beginning December 1.

Tips for a Successful ADEA AADSAS Application

1. Research dental schools with the help of a health professions advisor and discuss which schools are a good fit.
2. Complete and submit the ADEA AADSAS application early, as the application process can take up to six weeks.
3. Collect copies of all transcripts and have them available for reference.
4. Confirm individuals who will be providing letters of evaluation.
5. Write a strong personal statement.
6. Be honest throughout the application process.

Welcome to the 2016 ADEA GoDental Recruitment Fair! This is an exciting time to enter the dental profession. Changes are happening both within and outside of dentistry—dental providers are becoming an integral part of the interprofessional health care team, and professionals within dentistry are working together toward the common goal of providing the most efficient and effective care to patients. There are so many facets to dentistry and we hope that through this event you will gain a better understanding of the academics and the finances, but also see the compassion and caring that makes dentistry the wonderful profession that it is.

Throughout the day, you will hear from admissions officers and dental educators who can help you on this incredible journey. Take your time and explore the various schools in the exhibit hall. Talk with current dental students and other experts. You will find that dental education is well worth the investment you put into it.

We hope you take full advantage of the resources available to you today and that you enjoy the experience. You are the future of dentistry and health care, and we are honored to guide you toward whatever rewarding path you choose.

Huw F. Thomas, B.D.S., M.S., Ph.D.
Chair of the ADEA Board of Directors
Dean, Tufts University School of Dental Medicine
