2019 ADEA GoDental Recruitment Event

Saturday, March 16
9:30 a.m. – 3:00 p.m.
Chicago, IL • Hyatt Regency Chicago
WELCOME TO THE 2019 ADEA GODENTAL RECRUITMENT EVENT!

The dental professions offer tremendous career opportunities, spanning from patient care, to teaching, to dental research, to being part of the growing health care team. It is an exciting time to enter the oral health professions—dental care providers are making a real difference in the lives of their patients and in the communities they serve.

Applying to dental school is an exciting and intense process. Throughout the day, you will hear from admissions officers, dental students, financial aid advisors and dental educators. Take your time and explore the schools in the exhibit hall. Talk with advisors, current dental students and other experts. You will find that dental education is well worth the investment you put into it.

We hope you take full advantage of the resources available to you today and enjoy the experience. I hope to meet you over the next few days to learn more about what inspires you to seek a career in oral health. You are the future of dentistry and health care, and we are honored to help guide you toward whatever rewarding path you choose.

Chair of the ADEA Board of Directors

Looking for another chance to engage with dental school admissions officers? Don’t miss our FREE ONLINE event—the 2019 ADEA GoDental Virtual Fairs—on May 22 and 23!

EVENT SCHEDULE
Check out our NEW resource—the Enrichment Programs Calendar at adea.org/godental/programcalendar—exclusively designed around programs and experiences in the United States that focus on dentistry.

The NEW 2019-20 ADEA Official Guide to Dental Schools is available for purchase. Visit the ADEA GoDental Information Booth for more information.
Did you know that all U.S. dental schools require Biology, General/Inorganic Chemistry, Organic Chemistry, Physics and Biochemistry?

Did you know that dentists play a key role in the early detection of oral cancer and other systemic conditions of the body that manifest themselves in the mouth? They often identify other health conditions, illnesses and problems that can show up in the oral cavity before they are identified in other parts of the body.

For the fifth consecutive year, the U.S. News & World Report listed professions in dentistry among its top jobs.
